at Porto Flats

*Verona Park*

---

Come experience classic homes with a nod to European architecture surrounded by a beautiful natural environment. Verona Park captures the essence of community – the kind of place where you want your kids to grow up. It's a place where ponds, creeks, and trails wind through the neighborhood, where gathering spaces and parks are open to enjoy, and where refined, sophisticated residences are crafted to withstand the test of time.

## The best results take time.

We are building a Neighborhood, not a complex. We believe that a slow-crafted Verona Park neighborhood is one that will stand the test of time. *With your help* and understanding, we hope to create a unique, inviting place that benefits our community and the environment on Bloomington's southeast side.

## So what's next?

The streambed restoration process has begun. We must work from East to West as weather conditions and seasons allow. If conditions allow, we hope to have water flowing in the original streambed before this winter. We will concurrently be planting hundreds of native plants along the stream bed and to the East.

Our architects, engineers and neighborhood planners have further crafted our next construction of townhomes and apartments. The team is focused on creating a European-style Village which is nestled in and in harmony with the natural environment. Shortly we will present to Monroe County planning officials the next segment we propose to construct.

## Contact Us

*We would love to discuss the Verona Park vision with you in detail.*
