Opportunity Zone Information

Census Tract 174, Jacksonville , Florida

Census Tract 174 is a Low-Income Community Opportunity zone located in Jacksonville, FL. This 2.1 square mile census tract has a population of approximately 2,600 and is one of 21 Opportunity Zones in Duval County.

Investors can defer or reduce capital gains taxes by investing eligible capital gains into a **Qualified Opportunity Fund (QOF)**, an investment vehicle (corporation or partnership) that must hold at least 90% of its assets in Opportunity Zone property.

- **Tax Deferral:** Investors can temporarily defer tax on eligible capital gains that are reinvested into a QOF within 180 days. The deferred gain must be recognized on the earlier of the date the QOF investment is sold or December 31, 2026.
- **Partial Basis Step-Up (Expired for new investors):** Investors who held their QOF investment for at least five years received a 10% step-up in basis, and an additional 5% (for a total of 15%) if held for seven years, on the original deferred gain. Since the tax is due in December 2026, the deadline to achieve these holding periods has passed for new investments.
- **Permanent Exclusion on Future Gains:** If an investor holds the QOF investment for at least 10 years, they can elect to adjust the basis of their investment to its fair market value on the date of sale, effectively eliminating federal capital gains tax on any appreciation of the QOF investment itself.
