To help us best market your home, please tell us some of your favorite features and why you loved living in your home.

Address: 5100/5102 Mission Avenue, Dallas TX 75206

Reason #1:

The floor plan: Spacious bedrooms, open master floor plan with gas fireplace, juliet balconies. We appreciated the room layout with 2 bedrooms on the third floor, both with en suites. Perfect for roommates or guests. First level bedrooms and full baths for easy access front door and courtyard access. Second level for entertainment and remote working,

Reason #2: Location: Walkable to everything! Bars/restaurants/fast food/grocery stores/parks

Reason #3: Dual Units: This was always a plus for us because we had friends live next door, and at one point all siblings with 2 on each side. Could also be connected at some point by knocking out walls on second floor.

Reason #4:

Outdoor Space: 5100 has oversized balcony off the kitchen that was regularly used for grilling and enjoying morning coffee. Juliet balconies off the master bd in both units, off the living area in both units, and second floor on 5100.
