LOCATION INFORMATION

Traffic Counts

Sec. 6.01. - Intent.

- (a) The B-1 Local Business District is intended to meet the day-to-day convenience shopping and service needs of persons residing in adjacent residential areas. B-1 district designations are located within close proximity to areas planned for large residential populations, and are intended to serve the immediate vicinity so as not to create unnecessary additional traffic. In order to promote business development compatible with nearby residential, uses are prohibited that would create hazards, offensive and loud noises, vibration, smoke, glare, heavy truck traffic, or late hours of operation.
- (b) The B-2 Regional Business District is intended to serve a larger population than is serviced by a B-1 district. The district is general characterized by an integrated or planned cluster of establishments serviced by a common parking area and generating a large volume of vehicular and pedestrian traffic. The intent of this district is also to encourage the concentration of regional business areas to the mutual advantage of both the consumers and merchants and thereby to promote the best use of land at certain strategic locations and to avoid encouraging marginal strip, business development along arterial streets. Special attention must be focused on site layout, building design, vehicular and pedestrian circulation and coordination of site features between adjoining sites.
- (c) The B-3 General Business District is intended to provide for retail commercial services dependent on major street traffic. The uses in the B-3 district will be more automotive oriented and serve a market that includes city residents and residents from surrounding communities. The permitted uses would be located at the juncture of principal streets and are generally not appropriate immediately adjacent to residential zoning districts. Special attention must be focused on site layout, building design, vehicular circulation and buffering from other nearby uses.
- (d) The O-1 Office District is intended to accommodate uses such as offices for professional and business services, planned office developments, as well as appropriately located related and ancillary services and uses. The O-1 district is intended to permit those office and personal service uses which will establish an appropriate district for uses which do not generate large volumes of traffic, traffic congestion, and parking problems, and which will promote the most desirable use of land in accordance with the master plan. The O-1 district is further intended to provide a buffer or zone of transition between residential and commercial districts and between residential districts and arterial streets.
- (e) The O-2 Regional Office District is designed and intended to accommodate large office buildings and restricted related retail and service establishments which service large numbers of people. The O-2 district is intended to permit those office and personal service uses which will provide office buildings in landscaped settings to create office parks or landmark office buildings.

(Ord. No. 09-434, § 6.01, 1-20-2009)

Sec. 6.02. - Schedule of uses.

Buildings or land shall be not used and buildings shall not be erected except for one or more of the following specified uses, unless otherwise provided for in this ordinance. Land and/or buildings in the districts indicated at the top of Table 6.02 may be used for the purposes denoted by the following abbreviations:

- (a) *Permitted use (P)*. Land and/or buildings in this district may be used for the purposes listed by right.
- (b) *Special land use (SLU)*. The following uses may be permitted by obtaining special land use approval when all applicable requirements in [article 13](#), use requirements, and the standards of [section 21.04](#), review standards, are met.
- (c) *Not permitted (—)*. The use is not permitted in the district.
- (d) *Additional requirements*. Indicates requirements or conditions applicable to the use.
