

SECTION 7. PERMISSIBLE USES AND STANDARDS

7.1. TABLES OF PERMISSIBLE USES (TRADITIONAL AND MIXED-USE)

Table 7.1, Table of Permissible Uses, lists principle uses and indicates where a principle use is permitted by right (P), special use permit (S), or prohibited (blank) in a particular zoning district. Uses may also have use-specific standards defined in Section 7.2 and are subject to any district standards defined in this UDO.

7.2. PERMISSIBLE USE DEFINITIONS AND STANDARDS

7.2.1. PERMISSIBLE USE CATEGORIES

- A. **Grouping of Uses.** Uses have been grouped into residential, public, and institutional, commercial, office/medical, industrial, and other. To regulate use, categories of uses ("use categories") have been established. Use categories provide a systematic basis for assigning land uses to appropriate categories or zoning districts with other similar or compatible uses. Use categories classify land uses and activities based on common functional, product or physical characteristics. Characteristics include the type and amount of activity, the characteristics of customers or residents, how goods or services are sold or delivered, and certain site factors.

7.2.2. USE DETERMINATION

A. **Definitions.**

1. For the purpose of this Section, certain terms or words used in this Section shall be interpreted as follows:
 - a. The word "person" includes a firm, association, organization, partnership, trust, company or corporation, as well as an individual.
 - b. The word "shall" is mandatory; the word "may" is permissive.
 - c. The words "used or occupied" include the words "intended, designed or arranged to be used or occupied."
 - d. The word "lot" includes the words "plot," "parcel" and "tract."
 - e. The word "structure" means anything constructed or erected, exceeding six (6) inches height, the use of which requires more or less a permanent location on land, or an addition to something having a permanent attachment to land.
 - f. The word "land" includes the words "water," "marsh" and "swamp."
2. Any word not specifically defined herein (also see Section 11 Definition of Terms) shall be interpreted as meaning its most commonly used definition.

- a. The names of the use categories start with capital letters throughout this UDO.
- b. The following use categories are defined in this division:
 - i. Residential
 - ii. Public and Institutional
 - iii. Commercial
 - iv. Office/Medical
 - v. Industrial
 - vi. Other

7.2.3. CLASSIFICATION OF USES.

A. Considerations.

1. Uses are assigned to the category whose description most closely describes the nature of the primary use. The characteristics subsection of each use category describes the characteristics of each use category. Developments may have more than one (1) primary use. Developments may also have one (1) or more accessory uses. Developments with more than one (1) primary use are addressed in subsection (b) below. Accessory uses are addressed in subsection (c) below.
2. The following items are considered to determine what use category the use is in, and whether the activities constitute primary uses or accessory uses:
 - a. The description of the activities in relationship to the characteristics of each use category;
 - b. The relative amount of site or floor space and equipment devoted to the activity;
 - c. Relative amounts of sales from each activity;
 - d. The customer type for each activity;
 - e. The relative number of employees in each activity;

- f. Hours of operation;
 - g. Building and site arrangement;
 - h. Vehicles used with the activity;
 - i. The relative number of vehicle trips generated by the activity;
 - j. Signs;
 - k. How the use advertises itself; and
 - l. Whether the activity would be likely to be found independent of the other activities on the site.
- B. **Developments with Multiple Primary Uses.** When all the primary uses of a development fall within one (1) use category, then the development is assigned to that use category. For example, a development that contains a retail bakery and a cafe would be classified in the retail sales and service category because all of the primary uses are in that category. When the primary uses of a development fall within different use categories, each primary use is classified in the applicable category and is subject to the regulations for that category.
- C. **Accessory Uses and Structures.** Accessory uses and or structures are allowed by right in conjunction with the primary use and are subject to the same regulations as the primary use unless otherwise noted in these regulations. Accessory uses and structures shall comply with the standards in Section 7.5 Accessory Uses and Accessory Structures except where otherwise noted (i.e., Concord Avenue Overlay, Floodplain Regulations).
- D. **Examples.** Examples are listed for each definition. Examples are intended to provide a base for consideration of a similar use (if a similar use is not listed).
- E. **Unlisted Uses.** Uses Not Included are listed to exclude uses which may be commonly confused with another use. For uses not listed in Table 7.1, Table of Permissible Uses, not listed as a part of a use category or use type, and not listed as a prohibited use, the Director shall determine which use category or use type to which the use belongs in accordance with the following.

- a. The Director shall determine whether an unlisted use is similar to a use identified in Table 7.1, Table of Permissible Uses, based on consistency with the City's adopted policy guidance and the following standards:
- i. The function, product, or physical characteristics of the use;
 - ii. The impact on adjacent lands created by the use;
 - iii. The type, size, and nature of buildings and structures associated with the use;
 - iv. The type of sales (retail, wholesale), and the size and type of items sold and displayed on the premises;
 - v. The types of items stored (such as vehicles, inventory, merchandise, chemicals, construction materials, scrap and junk, and raw materials including liquids and powders);
 - vi. The volume and type of vehicle traffic generated by the use, and the parking demands of the use;
 - vii. Any processing associated with the use, including assembly, manufacturing, warehousing, shipping, distribution, and whether it occurs inside or outside a building;
 - viii. Any dangerous, hazardous, toxic, or explosive materials associated with the use;
 - ix. The amount and nature of any nuisances generated on the premises, including but not limited to noise, smoke, odor, glare, vibration, radiation, and fumes; and
 - x. Any prior determinations made by the Director or decisions made by City Council or appointed City boards.

- b. The Director's decision and explanation shall be made in writing, shall state the determination is final and subject to appeal as provided in Section 3 Administration, and shall be delivered by personal service, electronic mail, or by first class mail to the applicable parties. A written determination shall be binding on subsequent decisions by the Director or other administrative officials in applying the same provision of this Ordinance or the Official Zoning Map in the same circumstance, unless the determination is modified in accordance with this section, or the text of this Ordinance is amended. The Director shall maintain a record of written determinations that shall be available in the Planning and Development Department for public inspection, on reasonable request, during normal business hours.
 - c. After the Director determines the use category or use type in which the unlisted use is best classified, then the unlisted use shall be subject to all applicable requirements of that use category or use type. The Director shall also determine whether the unlisted use is likely to be common or recur frequently, and whether its omission is likely to lead to uncertainty and confusion. On determining that the unlisted use is likely to be common and would lead to confusion if unlisted, the Director shall initiate an application for a text amendment. Until final action is taken on the text amendment, the Director's decision shall be binding. If the Director determines that the unlisted use is of an unusual or transitory nature, and unlikely to recur frequently, the determination shall be binding without further action or amendment of this Ordinance.
 - d. An appeal of the Director's determination with regard to an unlisted use may be made in accordance with Section 3.4.11: Appeals.
- F. **Use Standards.** Use standards for a particular use may be found in the information in the following sections.

7.2.4. RESIDENTIAL USES

A. Single Family Detached

1. Characteristics. A building containing only one (1) dwelling unit, to be occupied by one (1) family. For regulatory purposes, the term is not to be construed as including mobile homes, recreational vehicles, travel trailers, housing mounted on motor vehicles, tents, houseboats, or other forms of temporary or portable housing.
2. Accessory Uses. Accessory uses commonly found are recreational facilities, parking of motor vehicles for the occupants, piers, and docks, and accessory structures such as a garage or shed. The home occupation shall be clearly incidental and subordinate to the residential use of the dwelling and shall not change the residential character of the dwelling.
3. Examples. Examples include single family homes and modular homes on a variety of lot sizes and types.
4. Uses Not Included.
 - a. Lodging where tenancy is arranged for one (1) week or less is considered a form of transient lodging (see commercial categories).
5. Use Standards
 - a. All accessory and uses shall be clearly incidental to permitted principal use. All accessory buildings and pools shall be located in a side or rear yard.

B. Townhouse/Attached Single Family

1. Characteristics. A building that may be attached or semi attached, consisting of dwelling units, each dwelling unit typically owned by separate ownership. For regulatory purposes, the term is not to be construed as including mobile homes, recreational vehicles, travel trailers, housing mounted on motor vehicles, tents, houseboats, or other forms of temporary or portable housing.

2. Accessory Uses. Accessory uses commonly found are recreational facilities, parking of motor vehicles for the occupants, piers and docks, and accessory structures such as a garage or shed. Home occupations may also be permitted as an accessory use including family adult care, up to six (6) residents.
3. Examples. Examples include townhouses, villas, or attached single family.
4. Uses Not Included.
 - a. Lodging where tenancy is arranged for one (1) week or less is considered a form of transient lodging (see commercial categories).
5. Use Standards.
 - a. All accessory and uses shall be clearly incidental to permitted principal use. All accessory buildings and pools shall be located in a side or rear yard.

C. Duplex/Triplex/Quadplex

1. Characteristics. A building containing up to four dwelling units, usually under single ownership, consolidated into a single structure. A duplex/triplex/quadplex is typically on a single lot and contains common walls. For regulatory purposes, the term is not to be construed as including mobile homes, recreational vehicles, travel trailers, housing mounted on motor vehicles, tents, houseboats, or other forms of temporary or portable housing.
2. Accessory Uses. Accessory uses commonly found are recreational facilities, parking of motor vehicles for the occupants, piers and docks, and accessory structures such as a garage or shed.
3. Examples. Examples include multiple family homes on a variety of lot sizes and types, such as a duplexes, triplexes, and quadplexes.
4. Uses Not Included.
 - a. Lodging where tenancy is arranged for one (1) week or less are considered to be a form of transient lodging (see commercial categories).
5. Use Standards

- a. Development consisting of only duplex(es) are not permitted on lots greater than three (3) acres.
- b. Lot width must be 1.5x the required minimum width of the base zoning district requirement for any duplex/triplex/quadplex.
- c. Lot size must be 1.5x the required minimum lot size of the base zoning district requirement for any duplex/triplex/quadplex.
- d. All accessory uses shall be clearly incidental to permitted principal use. All accessory buildings and pools shall be located in a side or rear yard.
- e. Duplexes on corner lots shall be designed in a way that each unit fronts on a different street.
- f. Each unit in the duplex shall have a separate entrance and separate drive.
- g. Duplexes in the South Monroe Historic District shall only be allowed on corner lots.

D. Multifamily

1. Characteristics. Multifamily dwelling units are characterized by a building that contains more than four dwelling units. This definition includes condominiums or multifamily apartments. Tenancy is arranged for periods longer than one (1) week. Uses where tenancy may be arranged for a shorter period are not considered residential. They are considered to be a form of transient lodging (see the commercial categories). Condominiums, apartment complexes that have accessory services such as food service, dining rooms, and housekeeping are included as multifamily dwellings.
2. Accessory Uses. Accessory uses commonly found are recreational facilities, parking of motor vehicles for the occupants and guests, piers and docks, and accessory structures such as a garage or shed.
3. Examples. Uses include living in apartments, condominiums, retirement center, and apartments.
4. Uses Not Included.

- a. Lodging where tenancy is arranged for one (1) week or less are considered to be a form of transient lodging (see the commercial categories).
- 5. Use Standards.
 - a. All multi-family developments shall be required to provide bulk waste containers such as dumpsters or trash compactors.
 - b. All multi-family developments with fifty (50) or more units shall be required to provide a bulk trash compactor. All developments shall provide recycling service and containers.

E. Upperstory Residential

- 1. Characteristics. Upperstory residential units are characterized by a building that contains a separate use on the bottom floor, and dwelling units on the floors above. This definition includes condominiums and multifamily apartments that feature a separate use on the bottom floor. Tenancy is arranged for periods longer than one (1) week. Uses where tenancy may be arranged for a shorter period are not considered residential; they are considered to be a form of transient lodging (see the commercial categories).
- 2. Accessory Uses. Accessory uses commonly found are recreational facilities, parking of autos for the occupants, piers and docks. Home occupations may also be permitted as an accessory use including family adult care, up to 6 residents. The home occupation shall be clearly incidental and subordinate to the residential use of the dwelling and shall not change the residential character of the dwelling.
- 3. Examples. Uses include mixed-use buildings featuring a separate use on the bottom floor, with residential above. May include apartments and condominiums.
- 4. Uses Not Included.

- a. Lodging where tenancy is arranged for one (1) week or less are considered to be a form of transient lodging (see the commercial categories).

F. Manufactured Home

1. Characteristics. Manufactured homes are built on an integral chassis, with or without permanent foundation, and are used as a dwelling unit. Manufactured homes are subject to any State standards for safety and occupancy.
2. Accessory Uses. Accessory uses commonly found are recreational facilities, parking of motor vehicles for the occupants, piers and docks, and accessory structures such as a garage or shed.
