Dear Mr. Hamilton:

The Texas Commission on Environmental Quality (TCEQ) has reviewed the release determination information dated January 12, 2016. The information provided does not appear to indicate that a release in excess of action levels has occurred from the storage tank system where the data were gathered. With the provision that the submitted information is correct and representative of actual site conditions, we concur that no further action is required relative to the above-referenced activity.

Please note that if underground or aboveground storage tanks remain or are installed at this site, they continue to be subject to TCEQ tank registration, self-certification, financial assurance and technical standards provisions.

Should you have questions, please contact Bria Patterson, the Project Manager at 512-239-2103. Your cooperation in this matter has been appreciated.

Sincerely,

A handwritten signature in black ink, appearing to read "Donald R. Boothby".
