## ROCKY MOUNTAIN RAIL PARK

The Rocky Mountain Rail Park is currently under construction with lot delivery being the primary focus. Construction projects underway include earthwork, dry utilities, wet utilities, streets, and rail infrastructure. At full buildout, the rail park platform will host both unit-train and manifest service environments on approximately 15 miles of private track. The property is perfectly situated to service the significant demands of the I-70 East growth corridor for industrial opportunities.

Located in Unincorporated Adams County and adjacent to Colorado Air and Space Port, Rocky Mountain Rail Park offers a unique combination of heavy industrial zoning and large acreage footprints with direct access to Union Pacific mainline. The property provides flexible sale, lease, and build-to-suit solutions.

Cushman & Wakefield has been retained as exclusive agents for the owner of the property and has been instructed to offer the property to the market. The Rocky Mountain Rail Park is a 620 acre rail served industrial park being developed by Rocky Mountain Industrials in Denver, Colorado. The park offers both rail and non-rail served industrial zoned parcels available to users via the following transaction structures:

1. Sale
2. Lease
3. Build-to-Suit for Sale or Lease

For more information, please contact the Cushman & Wakefield industrial team to discuss.
