Re: Closure of 1 tanks (1-9000 gallon diesel)

Dear Ms. Lacefield:

I have received and reviewed the sample assessment results and the permanent closure report associated with the underground storage tank closure conducted at your facility on September 17, 2007. The appropriate forms have been filed by your contractor, Compliance Management, Inc. As submitted, the sample assessment results indicate that no subsequent remediation of the underground storage tank site is necessary. Based upon the documentation submitted no further action is required at this time.

If you have any questions concerning this matter, please contact me at (501) 682-0974.

Sincerely,

Michael A. Warren
District 2 Inspector
Regulated Storage Tank Division
