

Sec. 27-5100 Principal Uses

27-5101. Principal Use Tables

(a) Structure of Principal Use Tables

(1) Designation of Principal Uses as Permitted

The Principal Use Tables in this Section use the following abbreviations to designate whether and how a principal use is allowed in a particular zone:

P	An "P" under a base zone column indicates that the use is permitted as a principal use in the zone, subject to applicable regulations of this Ordinance.
SE	An "SE" under a base zone column indicates that the use is permitted as a principal use in the zone only on approval of a special exception in accordance with Section 27-3604 , Special Exception, and subject to all special exception requirements and all other applicable regulations of this Ordinance.
A	An "A" designation within the Planned Development (PD) zone column indicates that the use is permitted as a principal use in the PD Zone, subject to applicable regulations of this Ordinance—unless the PD Basic Plan/Conditions of Approval approved for the zone expressly identifies the use as prohibited.
X	An "X" under a base or Planned Development (PD) zone column indicates that the use is prohibited as a principal use in the zone.
X	An "X" under an overlay zone column indicates that the use is prohibited as a principal use in the overlay zone, irrespective of whether it is allowed in the underlying base zone. This designation applies only to overlay zones.
SE*	An SE* under an overlay zone column indicates that, irrespective of whether it is a permitted use in the underlying base zone, the use is permitted as a principal use in the overlay zone only on approval of a special exception in accordance with Section 27-3604 , Special Exception, and subject to all special exception requirements and all other applicable regulations of this Ordinance.
P*	A P* under an overlay zone column indicates that, irrespective of whether it is prohibited in the underlying base zone, the use is permitted as a permitted principal use in the overlay zone, subject to applicable regulations of this Ordinance.
	A blank cell under an overlay zone column indicates the use is permitted as a principal use in the overlay zone if it is permitted in the underlying base zone.

All uses not listed are prohibited.

(2) Reference to Use-Specific Standards

A particular use category or use type permitted as a principal use in a zone may be subject to additional standards that are specific to the particular use. The applicability of use-specific standards is noted in the last column of the Principal Use Tables ("Use-Specific Standards") through a reference to standards in Section [27-5102](#), Requirements for Permitted Principal Uses.

(3) Reference to Special Exception Standards

A particular use category or use type permitted as a principal use in a zone may be subject to special exception standards when such use category or use type is indicated as requiring approval of a special exception. The applicability of special exception standards is noted in the last column of the Principal Use Tables ("Use-Specific Standards") through a reference to standards in Sec. [27-5400](#), Special Exception Standards. In the event the last column of the Principal Use Tables references both use-specific standards and special exception standards for a particular use category or use type, the use-specific standards shall only apply to uses listed as P, P*, or A in the use tables, while the special exception standards shall only apply to uses listed as SE or SE* in the use tables.

(b) Multiple Principal Uses

(1) A development may include:

- (A) A single principal use with one or more accessory uses that are customarily incidental and subordinate to the principal use (e.g., [home occupation](#) as accessory to a [dwelling](#), or administrative offices as accessory to a school, retail sales, or manufacturing use) or which are identified as accessory uses in Tables [27-5201\(b\)](#), [27-5201\(c\)](#), [27-5201\(d\)](#), or [27-5201\(e\)](#); or
- (B) Multiple different principal uses; or
- (C) Multiple different residential uses (such as [dwelling](#), [townhouse](#) and [dwelling](#), [multifamily](#)) on the

same lot or parcel in the RMF-12 Zone or any zone of higher intensity as identified in Section 27-4102(b)(1). More than one dwelling unit of the same type, such as in a multifamily residential building, does not constitute multiple principal uses.

- (2) Notwithstanding Subsection (1), above, multiple principal uses shall not be permitted on any lot in the RPD Zone or any zone of lesser intensity as identified in Section 27-4102(b)(1) if that lot contains a single-family residential dwelling.
- (3) A development with multiple principal uses shall include only those principal uses designated in the Principal Use Tables as allowed in the applicable zone. Each principal use shall be subject to any use-specific standards applicable to the use, provided, a building that contains nonresidential uses on the ground floor and residential uses above the ground floor that are subject to different setback requirements (see PART 27-4: Zones and Zone Regulations), shall be subject to the least restrictive of the applicable setback requirements. Where dimensional standards that apply to the lot as a whole, such as lot width or minimum lot area, are different for each use, the most restrictive apply.
