Central Eastside

The Central Eastside is undergoing a steady and sustained renaissance mixing the boundless energy of technology, design, engineering, food/beverage and makers and creators of all types to quickly become one of most dynamic and emergent commercial neighborhoods on the West Coast. Having added over 2000 jobs in the last 6 years to 15,000 who already live, work, create, build and innovate, the Central Eastside is full of potential and just hitting its stride. With 3000 new apartments and 500,000 SF office and creative space completed or under construction it is place of phenomenal opportunity.

Portland's Central Eastside is the place to be. Paying homage to its industrial roots and smartly using its vintage warehouse building stock mixed with cutting edge and eclectic new development, the Central Eastside is attracting some of the best and brightest (and more fun) aspects of the creative class. It would be hard to find more diverse mix of entrepreneurship, culture and energy in such a compact and accessible area of a major city.

—New York Times, 2019
