GEORGIA CYBER INNOVATION & TRAINING CENTER

Room for ideas

The third floor of the Shaffer MacCartney Building is prime space for innovative ideas.

Sizes range from 500 to 4000 sq/ft

Augusta, Georgia is a growing hub for cyber operations and security. The Augusta region is home to:

- US Army Cyber Center of Excellence
- US Army Cyber Command
- Savannah River National Lab
- NSA Georgia

The Georgia Cyber Innovation & Training Center is strategically located in downtown Augusta. It provides a unified home for the triple helix of government, academia, and private industry. Becoming a part of the ecosystem at the Georgia Cyber Center allows companies to rapidly integrate into the growing cyber community in Augusta. These companies benefit from close proximity to Augusta University,

Augusta Technical College, federal and state agencies, and many private industry partners that currently call the Georgia Cyber Center home. All of these partners are colocated on the same campus which allows for an intersection of ideas and creativity not found anywhere else in the United States. The Georgia Cyber Center's innovation space is ripe with opportunity for companies to integrate themselves into the existing ecosystem and experience rapid growth. This unique space is unlike anywhere else in Georgia or the nation.

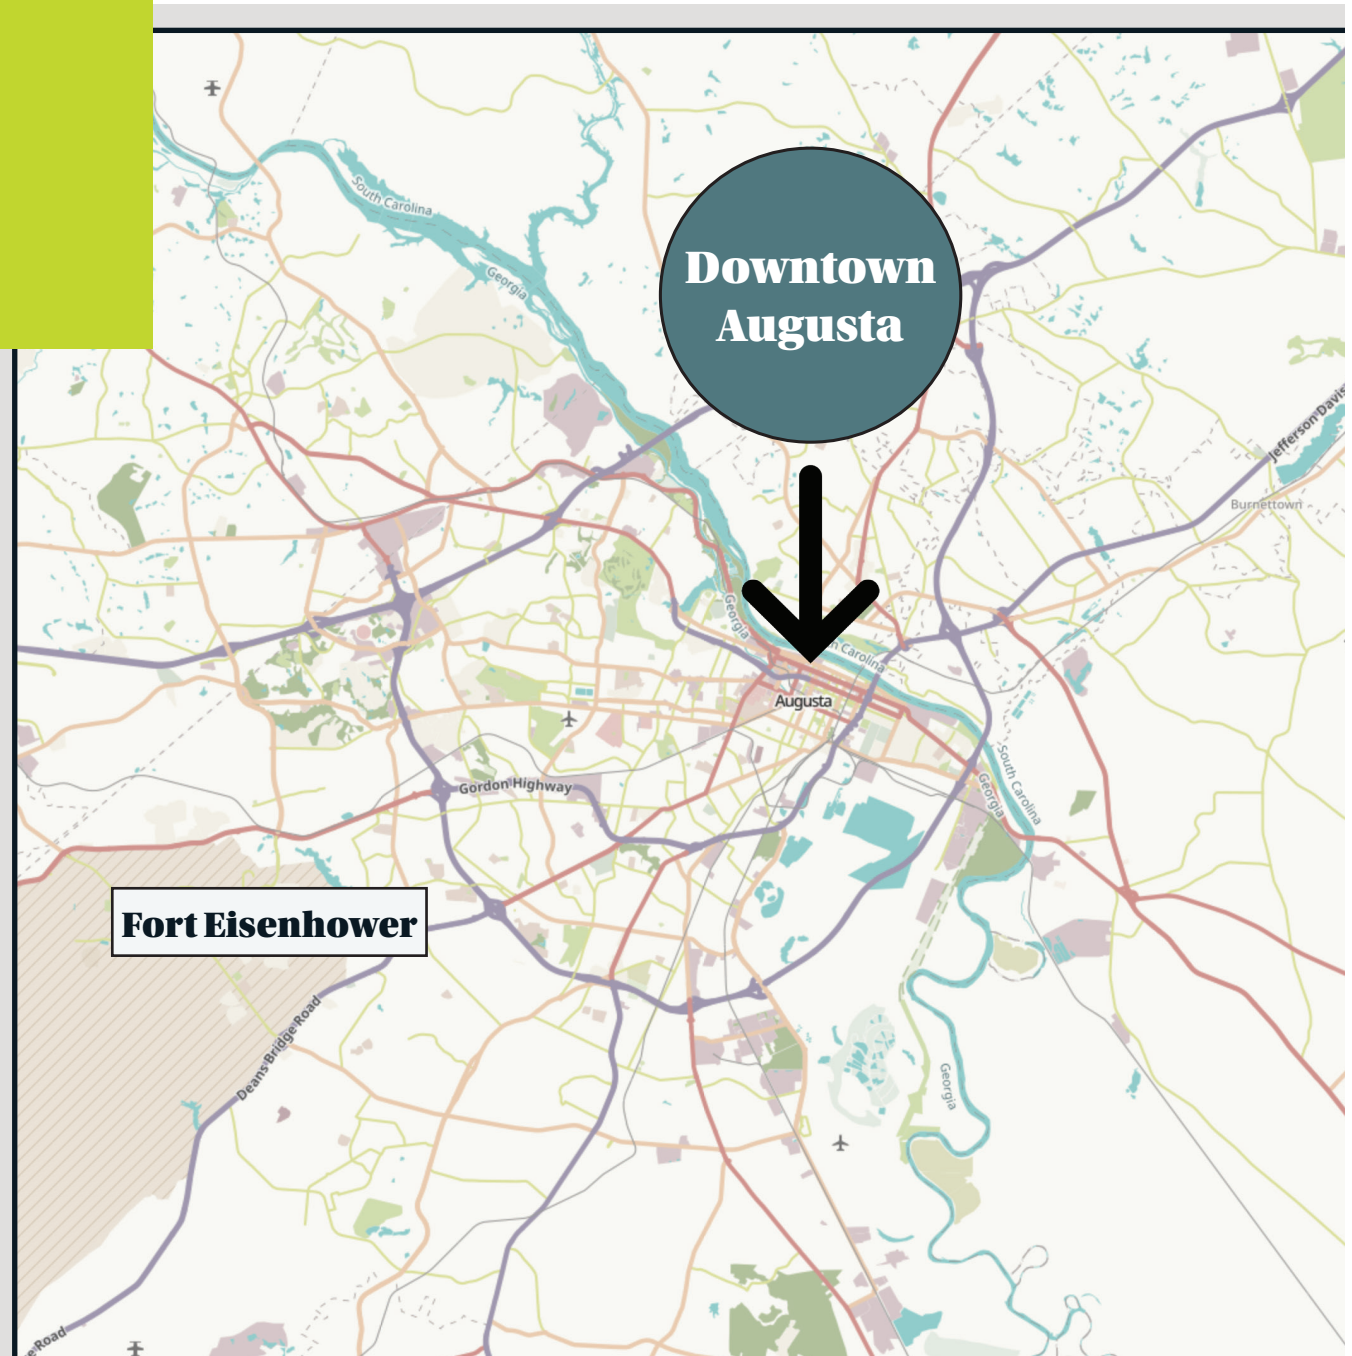

Innovation

Collaboration

Open work areas to drive creativity.

Vision & Mission

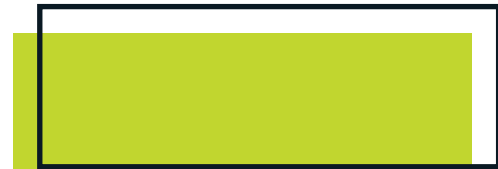

Our vision is clear:

To lead a revolution in cybersecurity through unprecedented collaboration and innovation.

We cultivate an ecosystem where the combined talent of government, academia, and private industry will:

- Deliver affordable and relevant cybersecurity training and education
- Develop the state's cybersecurity workforce
- Solve complex cybersecurity challenges
- Offer unbiased advice to policy-makers

in order to provide the nation with a decisive advantage in cyberspace.
