INVESTMENT HIGHLIGHTS

▶ Long-Term Absolute NNN Lease | Minimal Landlord Responsibilities

The offering features a long-term absolute NNN lease structure, providing investors with zero landlord responsibilities. Tenant is responsible for taxes, insurance, maintenance, and capital expenditures, creating a truly passive, hands-off investment opportunity.

▶ Recession-Resistant Healthcare Tenancy | Pediatric Behavioral Health Provider

The subject property is leased to Hopebridge, a leading provider of early-intervention autism therapy services who subleased the facility to The ITD Group, an early childhood development services company. Healthcare and pediatric behavioral services are widely regarded as recession resistant, supported by long-term demographic demand, insurance reimbursement, and non discretionary service needs.

▶ Purpose-Built Child Care / Therapy Facility

The property is purpose-built for center-based autism therapy, featuring classroom layouts, therapy rooms, and secure outdoor areas that are difficult and costly to replicate. The real estate is highly specialized, which was a driving factor for The ITD Groups interest in subleasing the site.

▶ Strong Suburban Atlanta Location | Growing Rockdale County

Located in Conyers, Georgia, the asset benefits from proximity to Metro Atlanta, strong population growth, and rising household formation. Rockdale County continues to see demand for pediatric and family-oriented services driven by expanding residential development.

▶ Healthcare Credit Profile | Insurance-Backed Revenue Stream

Tenant revenues are supported by commercial insurance and Medicaid reimbursement, providing stable cash flow and reducing exposure to economic cycles compared to traditional retail tenants.

▶ Family-Oriented Demographics | Strong Demand Drivers

The property is situated in a family-oriented suburban market supported by a growing population of households with children. Rockdale County and the broader eastern Atlanta suburbs continue to experience inbound residential growth, supporting sustained demand for pediatric, childcare, and early-intervention services that rely on proximity to their patient base.

TENANT PROFILE (LEASE GUARANTOR)

Expanding Access to Life-Changing Autism Therapy Services Since 2005

Founded in 2005, Hopebridge has become one of the nation's leading providers of pediatric autism therapy services. With over 100 locations in more than 12 states, Hopebridge offers a wide range of personalized treatment options, including Applied Behavior Analysis (ABA), occupational therapy, and speech therapy. Their innovative, center-based model provides consistent therapy in a structured, supportive setting.

Each year, Hopebridge supports over 10,000 children and their families through early intervention programs backed by clinical best practices. Their team includes Board Certified Behavior Analysts (BCBAs), Registered Behavior Technicians (RBTs), speech-language pathologists, and occupational therapists—all working together to deliver individualized, evidence-based care. Hopebridge's commitment to expanding access in underserved communities, combined with a compassionate, family-centered approach, has made them a trusted leader in pediatric behavioral health.

TENANT PROFILE (SUBLESSEE)

Expanding Early Childhood Development Services Since 2014

Founded in 2005, The ITD Group (Infant–Toddler Development) is a leading provider of early childhood developmental and therapeutic services, specializing in supporting infants and toddlers during critical stages of growth. Through a multidisciplinary, play-based approach, ITD delivers individualized programs designed to promote communication, motor skills, social development, and emotional regulation in a nurturing, structured environment.

Each year, The ITD Group serves thousands of children and families through early intervention services grounded in evidence based practices. Their team includes licensed therapists, early childhood specialists, and developmental professionals who collaborate closely with families to create customized care plans. ITD’s commitment to early intervention, family engagement, and long-term developmental outcomes has positioned the organization as a trusted provider within the pediatric therapy and early education space.
